GradLink Jobs Module — API Documentation

Comprehensive API reference for the Jobs, Applications, and Saved Jobs endpoints.

Base URL: `/api/jobs/`
Authentication: All endpoints require `Authorization: Bearer <access_token>` header.

💼 Jobs

List Jobs

- **Path:** `/api/jobs/`
- **Method:** `GET`
- **Auth Required:** `Yes`
- **Permission:** Any authenticated user
- **Description:** Returns a paginated list of all **active** job postings. Supports search, filtering, and ordering.

Query Parameters:

Parameter	Type	Description
`page`	integer	Page number (default: 1)
`page_size`	integer	Items per page (default: 20, max: 100)
`search`	string	Search in title, description, location, company name
`work_type`	string	Filter: `full_time`, `part_time`, `internship`, `contract`, `remote`
`experience_level`	string	Filter: `entry`, `mid`, `senior`, `fresh_grad`
`is_remote`	boolean	Filter: `true` or `false`
`location`	string	Filter by location (partial match)
`skills`	string	Filter by skill IDs (comma-separated, e.g. `1,3,5`)
`salary_min`	decimal	Minimum salary filter
`salary_max`	decimal	Maximum salary filter
`ordering`	string	Sort by: `created_at`, `-created_at`, `deadline`, `salary_min`, `salary_max`, `views_count`

Example Request:

```
GET /api/jobs/?
work_type=internship&experience_level=fresh_grad&search=python&page=1&page_size=10
```

Success Response (200 OK):

```
{
  "count": 45,
  "total_pages": 5,
  "current_page": 1,
  "page_size": 10,
  "next": "http://localhost:8000/api/jobs/?page=2",
  "previous": null,
  "results": [
    {
      "id": "uuid",
      "title": "Junior Python Developer",
      "company_name": "TechCorp",
      "company_logo": null,
      "location": "Cairo, Egypt",
      "is_remote": false,
      "work_type": "full_time",
      "experience_level": "entry",
      "salary_min": "5000.00",
      "salary_max": "8000.00",
      "hide_salary": false,
      "skills": [
        { "id": 1, "name": "Python", "category": "technical" },
        { "id": 2, "name": "Django", "category": "technical" }
      ],
      "status": "active",
      "deadline": "2026-04-01T00:00:00Z",
      "applications_count": 12,
      "views_count": 340,
      "is_expired": false,
      "is_saved": true,
      "created_at": "2026-02-28T10:00:00Z"
    }
  ]
}
```

> **Note:** If `hide_salary` is `true`, both `salary_min` and `salary_max` will return `null`.

Create Job

- **Path:** `/api/jobs/`
- **Method:** `POST`
- **Auth Required:** `Yes`
- **Permission:** `Employer only`
- **Description:** Creates a new job posting. The employer is automatically set from the authenticated user's profile.

Request Body:

```
{
  "title": "string (min 3 chars, required)",
  "description": "string (min 20 chars, required)",
  "requirements": "string (optional)",
  "responsibilities": "string (optional)",
  "work_type": "string (full_time|part_time|internship|contract|remote, default:
full_time)",
  "experience_level": "string (entry|mid|senior|fresh_grad, default: entry)",
  "skill_ids": [1, 2, 3],
  "location": "string (optional)",
  "is_remote": "boolean (default: false)",
  "salary_min": "decimal (optional, >= 0)",
  "salary_max": "decimal (optional, >= salary_min)",
  "hide_salary": "boolean (default: false)",
  "status": "string (draft|active|paused|closed, default: draft)",
  "deadline": "iso-datetime (optional, must be in the future)"
}
```

Example Request:

```
{
  "title": "Frontend React Developer",
  "description": "We are looking for a talented React developer to join our team
and build modern web applications.",
  "requirements": "2+ years experience with React, TypeScript, and REST APIs.",
  "responsibilities": "Build and maintain frontend components, collaborate with
the design team.",
  "work_type": "full_time",
  "experience_level": "mid",
  "skill_ids": [1, 5, 8],
  "location": "Cairo, Egypt",
  "is_remote": true,
  "salary_min": 10000,
  "salary_max": 15000,
  "status": "active",
  "deadline": "2026-05-01T00:00:00Z"
}
```

Success Response (201 Created):

```
{
  "id": "a1b2c3d4-...",
  "title": "Frontend React Developer",
  "description": "We are looking for...",
  "requirements": "2+ years experience...",
  "responsibilities": "Build and maintain...",
  "work_type": "full_time",
  "experience_level": "mid",
  "skills": [
    { "id": 1, "name": "React", "category": "technical" },
    { "id": 5, "name": "TypeScript", "category": "technical" }
  ],
  "location": "Cairo, Egypt",
  "is_remote": true,
  "salary_min": "10000.00",
  "salary_max": "15000.00",
  "hide_salary": false,
  "status": "active",
  "deadline": "2026-05-01T00:00:00Z",
  "company_name": "TechCorp",
  "company_industry": "Technology",
  "company_size": "11-50",
  "company_website": "https://techcorp.com",
  "is_verified_employer": true,
  "applications_count": 0,
  "views_count": 0,
  "is_expired": false,
  "is_saved": false,
  "created_at": "2026-02-28T17:20:00Z",
  "updated_at": "2026-02-28T17:20:00Z"
}
```

Error Response (400 Bad Request):

```
{
  "title": ["Job title must be at least 3 characters."],
  "salary_min": ["Minimum salary cannot exceed maximum salary."],
  "deadline": ["Deadline cannot be in the past."]
}
```

Error Response (403 Forbidden):

```
{ "detail": "Only employers can perform this action." }
```

Retrieve Job Details

- **Path:** `/api/jobs/<uuid:id>/`
- **Method:** `GET`
- **Auth Required:** `Yes`
- **Permission:** Any authenticated user
- **Description:** Returns full job details. **Automatically increments `views_count`** on each request.

Success Response (200 OK):

Same structure as Create Job response above, with full company info included.

Update Job

- **Path:** `/api/jobs/<uuid:id>/`
- **Method:** `PUT` (full) or `PATCH` (partial)
- **Auth Required:** `Yes`
- **Permission:** `Employer who owns the job only`
- **Description:** Update a job posting. Only the employer who created the job can modify it.

Example PATCH Request:

```
{
  "status": "paused",
  "salary_max": 20000
}
```

Delete Job

- **Path:** `/api/jobs/<uuid:id>/`
- **Method:** `DELETE`
- **Auth Required:** `Yes`
- **Permission:** `Employer who owns the job only`
- **Description:** Permanently deletes a job posting and all associated applications.

Success Response (204 No Content):

(No body)

My Jobs (Employer Dashboard)

- **Path:** `/api/jobs/my-jobs/`
- **Method:** `GET`
- **Auth Required:** `Yes`
- **Permission:** `Employer only`
- **Description:** Returns all jobs posted by the authenticated employer (**all statuses**: draft, active, paused, closed, expired).

Success Response (200 OK):

Same paginated structure as List Jobs.

📝 Applications

Apply to Job

- **Path:** `/api/jobs/<uuid:job_id>/apply/`
- **Method:** `POST`
- **Auth Required:** `Yes`
- **Permission:** `Student only`
- **Content-Type:** `multipart/form-data` (if uploading resume) or `application/json`
- **Description:** Submit an application for a job. Each student can apply **only once** per job.

Request Body:

```
{
  "cover_letter": "string (optional)",
  "resume": "file (optional, PDF or Word, max 5MB)"
}
```

Success Response (201 Created):

```
{
  "id": "uuid",
  "cover_letter": "I am excited to apply...",
  "resume": "/media/applications/resumes/my_cv.pdf",
  "applied_at": "2026-02-28T17:30:00Z"
}
```

Error Responses:

```
// 400 — Job not active
{ "error": "This job is no longer accepting applications." }

// 400 — Job expired
{ "error": "This job posting has expired." }

// 409 — Duplicate application
{ "error": "You have already applied to this job." }

// 403 — Not a student
{ "detail": "Only students can perform this action." }
```

My Applications (Student)

- **Path:** `/api/jobs/my-applications/`
- **Method:** `GET`
- **Auth Required:** `Yes`
- **Permission:** `Student only`
- **Description:** Returns all applications submitted by the authenticated student.

Success Response (200 OK):

```
{
  "count": 5,
  "total_pages": 1,
  "current_page": 1,
  "page_size": 20,
  "next": null,
  "previous": null,
  "results": [
    {
      "id": "uuid",
      "job_id": "uuid",
      "job_title": "Frontend React Developer",
      "company_name": "TechCorp",
      "student_email": "student@example.com",
      "student_name": "Ahmed Mohamed",
      "student_university": "Cairo University",
      "status": "pending",
      "applied_at": "2026-02-28T17:30:00Z",
      "updated_at": "2026-02-28T17:30:00Z"
    }
  ]
}
```

Job Applications (Employer)

- **Path:** `/api/jobs/<uuid:job_id>/applications/`
- **Method:** `GET`
- **Auth Required:** `Yes`
- **Permission:** `Employer who owns the job`
- **Description:** Returns all applications for a specific job. Supports filtering by status.

Query Parameters:

Parameter	Type	Description
`status`	string	Filter: `pending`, `reviewing`, `shortlisted`, `interview`, `accepted`, `rejected`, `withdrawn`

Example Request:

```
GET /api/jobs/a1b2c3d4-.../applications/?status=pending
```

Success Response (200 OK):

Same paginated structure as My Applications. Returns empty list if the employer doesn't own the job.

Application Detail

- **Path:** `/api/jobs/applications/<uuid:id>/`
- **Method:** `GET`
- **Auth Required:** `Yes`
- **Permission:** `Student who applied` **or** `Employer who owns the job` **or** `Admin`
- **Description:** Returns full application details including cover letter and resume.

Success Response (200 OK):

```
{
  "id": "uuid",
  "job_id": "uuid",
  "job_title": "Frontend React Developer",
  "company_name": "TechCorp",
  "student_id": "uuid",
  "student_email": "student@example.com",
  "student_name": "Ahmed Mohamed",
  "cover_letter": "I am excited to apply for this position...",
  "resume": "/media/applications/resumes/my_cv.pdf",
  "status": "reviewing",
  "employer_notes": "Strong candidate, schedule interview",
  "applied_at": "2026-02-28T17:30:00Z",
  "updated_at": "2026-03-01T09:00:00Z"
}
```

> **Note:** The `employer_notes` field is **only visible to employers**. Students will not see this field in the response.

Update Application Status (Employer)

- **Path:** `/api/jobs/applications/<uuid:id>/status/`
- **Method:** `PATCH`

- **Auth Required:** `Yes`
- **Permission:** `Employer who owns the job`
- **Description:** Employer updates the application status and/or adds private notes.

Request Body:

```
{
  "status": "string (pending|reviewing|shortlisted|interview|accepted|rejected)",
  "employer_notes": "string (optional, private)"
}
```

Example Request:

```
{
  "status": "shortlisted",
  "employer_notes": "Strong Python skills, matches job requirements well."
}
```

Success Response (200 OK):

```
{
  "status": "shortlisted",
  "employer_notes": "Strong Python skills, matches job requirements well."
}
```

Error Response (400):

```
{ "status": ["Employers cannot withdraw applications. Only students can."] }
```

Withdraw Application (Student)

- **Path:** `/api/jobs/applications/<uuid:id>/withdraw/`
- **Method:** `DELETE`
- **Auth Required:** `Yes`
- **Permission:** `Student who applied`
- **Description:** Student withdraws their application. Only allowed when status is `pending` or `reviewing`.

Success Response (200 OK):

```
{ "message": "Application withdrawn successfully." }
```

Error Response (400):

```
{ "error": "Cannot withdraw an application with status \"Shortlisted\"." }
```

⭐ Saved Jobs

List Saved Jobs

- **Path:** `/api/jobs/saved/`
- **Method:** `GET`
- **Auth Required:** `Yes`
- **Permission:** `Student only`
- **Description:** Returns all jobs bookmarked by the authenticated student.

Success Response (200 OK):

```
{
  "count": 3,
  "total_pages": 1,
  "current_page": 1,
  "page_size": 20,
  "next": null,
  "previous": null,
  "results": [
    {
      "id": "uuid",
      "job": {
        "id": "uuid",
        "title": "Junior Python Developer",
        "company_name": "TechCorp",
        "location": "Cairo",
        "work_type": "full_time",
        "experience_level": "entry",
        "salary_min": "5000.00",
        "salary_max": "8000.00",
        "status": "active",
        "is_saved": true,
        "created_at": "2026-02-28T10:00:00Z"
      },
      "saved_at": "2026-02-28T18:00:00Z"
    }
  ]
}
```

Save Job

- **Path:** `/api/jobs/<uuid:job_id>/save/`
- **Method:** `POST`
- **Auth Required:** `Yes`
- **Permission:** `Student only`
- **Description:** Bookmark a job for later. No request body needed.

Success Response (201 Created):

```
{ "message": "Job saved successfully." }
```

Error Response (409 Conflict):

```
{ "error": "Job already saved." }
```

Unsave Job

- **Path:** `/api/jobs/<uuid:job_id>/unsave/`
- **Method:** `DELETE`
- **Auth Required:** `Yes`
- **Permission:** `Student only`
- **Description:** Remove a job from bookmarks.

Success Response (200 OK):

```
{ "message": "Job unsaved successfully." }
```

Error Response (404 Not Found):

```
{ "error": "Job was not saved." }
```

🔧 Skills

List Skills

- **Path:** `/api/jobs/skills/`
- **Method:** `GET`
- **Auth Required:** `Yes`
- **Permission:** Any authenticated user
- **Description:** Returns all available skills. Useful for autocomplete dropdowns in forms. **Not paginated** for dropdown convenience.

Query Parameters:

Parameter	Type	Description
`search`	string	Search skills by name

Example Request:

```
GET /api/jobs/skills/?search=python
```

Success Response (200 OK):

```
[
  { "id": 1, "name": "Python", "category": "technical" },
  { "id": 2, "name": "Python Flask", "category": "technical" }
]
```

📊 Application Status Flow

```
┌─────────┐     ┌──────────┐     ┌──────────────┐     ┌──────────┐
│ PENDING  │──►│ REVIEWING │──►│ SHORTLISTED  │──►│ INTERVIEW │
└─────────┘     └──────────┘     └──────────────┘     └──────────┘
     │              │                  │                  │
     │              │                  │                  │
     ▼              ▼                  ▼                  ▼
┌──────────┐   ┌──────────┐     ┌──────────┐        ┌──────────┐
│ WITHDRAWN │   │ REJECTED  │     │ REJECTED  │        │ ACCEPTED │
│(by student)│   │          │     │          │        │          │
└──────────┘   └──────────┘     └──────────┘        └──────────┘
```

Status	Set By	Description
`pending`	System	Default when student applies
`reviewing`	Employer	Employer is reviewing the application
`shortlisted`	Employer	Candidate is shortlisted
`interview`	Employer	Interview has been scheduled
`accepted`	Employer	Candidate is accepted for the position
`rejected`	Employer	Application is rejected
`withdrawn`	Student	Student withdrew the application

📝 Status Codes

Code	Description
200	OK (Success)
201	Created (Job/Application/SavedJob created)
204	No Content (Deleted successfully)
400	Bad Request (Validation Error / Business Rule Violation)
401	Unauthorized (Missing/Invalid Token)
403	Forbidden (Wrong role or not owner)
404	Not Found
409	Conflict (Duplicate application or already saved)
500	Internal Server Error
